

Program	Program NUCLEU PN 09-13 02 17
Project title (ENG):	The environmental risk assessment using pollution indices
Project title (RO):	Evaluarea riscului de mediu cu ajutorul indicilor de poluare
Duration	2014-2015
Team Leader	Senior Researcher Chem. Mihaela Iordache
Summary (ENG) (short description)	The project aims to evaluate the extent of contamination by heavy metals in sediments and environmental risk using indices of pollution. We established criteria and indices for evaluating the significant pollution metal contamination. Also, it has developed a methodology for risk assessment. The methodology was verified on real situations studies.
Summary (RO) (short description)	Proiectul are ca obiectiv evaluarea gradului de contaminare cu metale grele in sedimente si a riscului ecologic utilizand indicii de poluare. S-au stabilit criteriile si indicii de poluare semnificativi pentru evaluarea gradului de contaminare cu metale, s-a elaborat o metodologie de evaluare a riscului si s-a verificat aceasta metologie prin studii pe situatii reale.
Dissemination of results
