Project title (ENG):	Economic and social progress in harmony with the environment, through knowledge based development
Project title (RO):	Progres economic si social in armonie cu mediul, prin dezvoltarea bazata pe cunoastere
Duration	2009-2012
Team Leader	Lucian Constantin
Summary (short description) ENG	The methodology is asking for using local specialists, economic units for the implementation of knowledge based sustainable strategy, due to the fact that they know better local problems and therefore can resolve them efficiently. Sustainable development strategy proposes development options for all three pillars of sustainable development: economic, environment and social, which will produce benefic effects on all three dimensions of sustainable development
Summary (short description) RO	Metodologia presupune utilizarea specialistilor, agentilor economic locali, resurselor locale in implementarea strategiei de dezvoltare bazata pe cunoastere, deoarece acestia cunosc cel mai bine problemele locale si sunt cei care le pot rezolva cel mai eficient. Strategia de dezvoltare durabila propune optiuni de dezvoltare pentru toti cei trei piloni ai sustenabilitatii: economic, de mediu si social, ce vor produce efecte benefice in toate cele trei dimensiuni ale dezvoltarii durabile
