Project title (ENG):	Guide for assessing the environmental performance for the industrial Romanian organizations
Project title (RO):	Ghid de evaluare a performantei de mediu pentru organizatiile romanesti din industrie
Duration	2006-2008
Team Leader	Senior Researcher Eng. Georgeta Madalina Arama
Summary (short description) ENG	In this project the idea of reporting the environmental performance for an organization has been presented taking into considering the sustainable development indicators that refer to the performance of environmental conditions, the operational performance of the organization and the performance environmental management. The research has been materialized in an indicators guide with indicators that are useful for the organization and that are generally required by all the parties interested in the sustainable development. The guide is conceived so that the organizations to be able to choose the relevant indicators that link the cause to the effect in a synthetic mode. It is easy to be consulted and understood being useful for reporting the environmental performance to the interested parties.
Summary (short description) RO	In acest proiect a fost abordata ideea raportarii performantei de mediu a unei organizatii prin prisma unor indicatori ai dezvoltarii durabile care se refera la performanta conditiilor de mediu, performanta operationala a organizatiei si performanta de management de mediu a acesteia. Cercetarile s-au concretizat in realizarea unui ghid de indicatori de tipul celor utili organizatiei si ceruti in general de toate partile interesate in dezvoltarea durabila. Ghidul este conceput astfel incat organizatiile sa fie capabile sa aleaga indicatorii relevanti care leaga cauza de efect intr-un mod sintetic. Este usor sa fi consultat si inteles fiind util in raportarea performantei de mediu catre partile interesate.
